PERMAWOOD

Aluminum Shade Structures by Structall

A PermaWood Shade Structure is an investment in beauty and value. Its lattice design with its sophisticated charm makes it a landscaping focal point for any home. All units are constructed of an embossed aluminum with a richly textured wood-grain finish for an authentic wood look. The long-term cost is less than wood, because **PermaWood** won't burn, attract termites, crack, peel, warp, rot or need constant repainting.

- Strong, long-lasting, low-maintenance aluminum
- Color-matching fasteners
- Attach to home or construct free-standing
- Lifetime limited warranty
- Heavy header beam construction
- Posts install with brackets fastened to a concrete slab or embedded in concrete footings
- Virtually maintenance free
- Custom designed and custom fit

Enjoy Your Lattice Cover - Rain, Shade or Shine.

The Santa Fe and the HardTop combine the solid roof of the Snap-N-Lock™ Insulated Panel with beautiful lattice accents and exposed rafter tails.

PermaWood Shade Structures are available in 5 colors: White, Spanish Brown, Sandstone, Adobe, and Desert Sand.

Aluma-ShieldSM with Teflon[®] surface protector provides:

- Washability of a semi-gloss finish and decorative appeal of a matte finish.
- Surfaces that repel oil, dust, dirt, and stains - making them easy to keep clean.
- Protection from UV and weathering for a long-lasting, beautiful new look.
- Products that are resistant to corrosion from sun, salt, and pollution.
- A durable surface that resists chalking and fading.
- A premium coating without the premium price.
